EDUCATION

St. Joseph's Institute of Technology **06 2023 – 06 2027**
Bachelor of Engineering – Computer Science and Engineering – CGPA: 9.14

Sri Krishnaswamy Matriculation Higher Secondary School **05 2023**
HSC (Class XII) – 90.8%

PROJECTS

Self-Heal – AI-Powered IT Support Self-Healing Controller | GitHub **09 2026**

- Built an AI-assisted IT support system to analyze user-reported issues and identify suitable remediation actions.
- Developed an automated self-healing workflow with confidence-based decision making to resolve issues automatically, request additional information, or escalate complex cases to human analysts.
- Implemented ticket tracking and audit logging to record issue analysis, remediation actions, and resolution status.

Age Lens – AI-Powered Facial Age Estimation System | GitHub **07 2026**

- Built an end-to-end age estimation pipeline using ResNet18/50, EfficientNet-B0, and MobileNetV2
- Designed a hybrid prediction approach that combines both classification and regression outputs instead of relying on a single prediction head.
- Developed a Vanilla JavaScript frontend with localStorage token management and dynamic DOM rendering for real-time updates

Citizen Service Management Portal | GitHub **02 2026**

- Developed an ML model that classifies uploaded images and automatically routes complaint tickets to the appropriate government department.
- Built dashboards and complaint management systems for administrators and citizens.
- Developed and deployed a full-stack MERN application using React, Node.js, Express.js, and MongoDB.

INTERNSHIP

NULLCLASS **Aug 2025**

- Deployed a full-stack e-commerce application (EverShop) on AWS using EC2, S3, and PostgreSQL.
- Configured Auto Scaling and Load Balancers to ensure high availability and performance optimization.
- Implemented secure cloud infrastructure and database connectivity for reliable application deployment.

BIG-SI-BUCKS INNOVATION **June 2024**

- Designed intuitive user interfaces for web and mobile applications with a strong focus on user experience.
- Conducted user research and created personas, wireframes, and prototypes using Figma.
- Improved design consistency by creating reusable UI components and maintaining design guidelines

TECHNICAL SKILLS

Languages: Java, Python, SQL

Frontend: HTML5, CSS3 ,JavaScript, React JS

Backend: Spring Boot, Spring Security, Fast API

AI/ML: TensorFlow, PyTorch, Scikit-learn, Ensemble Learning ,Knowlegde Base, RAG, Sentence Transformer

Architecture: OOP's, MVC, SOLID Principles

DevOps & Cloud: Jenkins, CI/CD, Docker, AWS EC2, S3, IAM, AWS Lambda, AWS VPC, Maven

Databases: MySQL, MongoDB, Amazon RDS, PostgreSQL

Tools: AWS Console, Git, GitHub, VS Code, IntelliJ, Figma, PowerBI

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Certified AI Practitioner
- PwC Micro-Certified

ACHIEVEMENTS

- **Winner – Project Expo 2026**, Kalasalingam University, IEEE-sponsored International Expo.
- **Winner – BLAZE 3.0** 24-Hour Hackathon, St. Joseph's Institute of Technology.
- **Semi Finalist - Deep Blue** By Masterk(2024–2025).
- Solved **550+** problems on **LeetCode**.
